## Challenges

## HAWK Introduction

HAWK is an automated security solution enabling organizations to take complete control on their security posture.

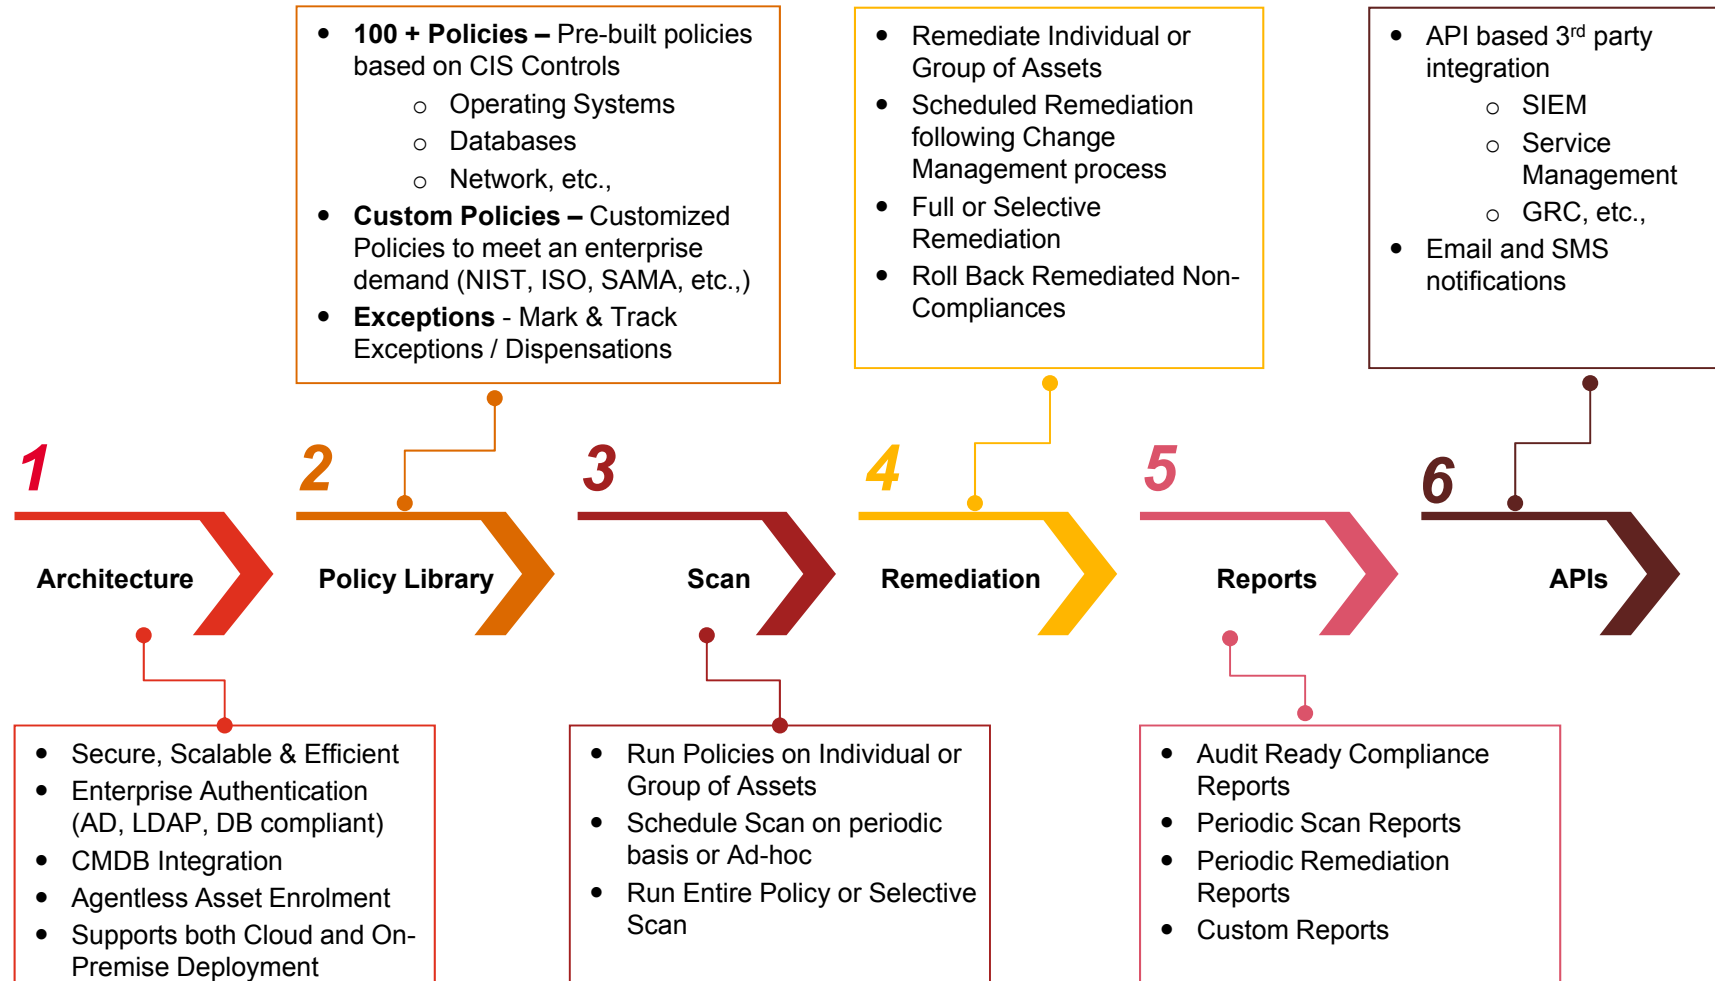

Features:

- Unified portal integrated with enterprise Active Directory or Database for Access Control
- Applying appropriate security controls (based on CIS, NIST or custom baseline security standards)
- Ad-hoc or Scheduled Scan for violations
- Automated Remediation of identified violations
- Roll Back Remediated non-compliances
- Manage Exceptions/Dispensations
- Audit Ready Reports
- Available On-Premise and on SaaS Cloud

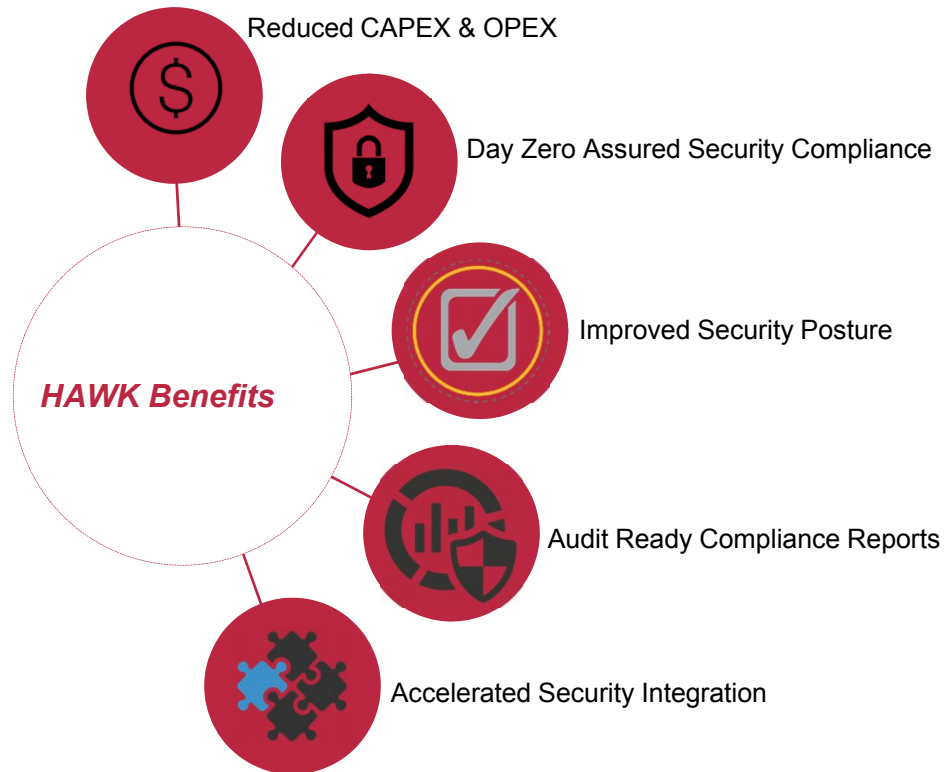

## HAWK Introduction (Contd..)

## Key Benefits

Gavin Technologies
